

PlanetPress® Virtual Stationery

OL™ Software

RETHINK YOUR PRE-PRINTED STATIONERY

**PRODUCTIVITY.
AFFORDABILITY.
WITHOUT COMPROMISES.**

MOVE YOUR PRE-PRINTED STATIONERY TO THE VIRTUAL WORLD. **SAVE MONEY.**

Many businesses today still use pre-printed stationery; whether it's a variety of colour letterheads for invoices, work orders or business communications; or for specific paper types and forms. However, many hidden costs come with the usage of pre-printed stationery.

Fortunately, there are ways to slash these costs without compromising productivity and image. With the right technologies, you can transform an expensive business model into an example of efficiency.

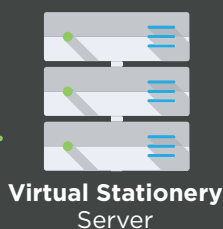

REDUCE WASTE. CUT COSTS. IMPROVE EFFICIENCY.

Virtual Stationery allows you to replace your pre-printed paper supply with PDFs in minutes, with little or no change to the print process. Except for the feeling you get when you are done.

How it works

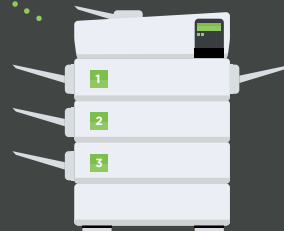

Send Content

Send documents to Virtual Stationery printer queue from any Windows® application.

Output

Choose a target printer and print on plain paper.

Target Printer(s)

Users & Groups

Add PDF

Upload your PDF for users, groups or queues using a web interface.

Virtual Stationery
Configuration console

With Virtual Stationery, streamline your print workflow and cut costs. Without compromising colour or quality.

And more

Stationery is centralised through a web interface for users and/or groups.*

Users and groups can print from any Windows® application.
Any user can print to their target printer(s).

* Users or Groups can assign or virtually load up to 5 stationery types each. (Except for the Business Edition that only supports a single group.)

Product range

Business Edition: **Single printer only**

Business Edition* cannot be upgraded, but a full credit will be given for customers wishing to upgrade to Corporate or Enterprise Editions.

Corporate Edition: **Two printers, upgradable**

Corporate Edition comes with two printer licenses, but others can be added as required.

Enterprise Edition: **Unlimited printers**

Corporate & Enterprise Editions has LDAP support and supports Follow ME printing for all licensed printers.

*Business Editions supports a single group only.
